CCMT 是我国最具权威性的中国国际机床展览会 CIMT 的姊妹展, 在机床业界及广大用户中影响力不断增强, 特别是在机床市场非常活跃的华东一带。

CCMT is the sister show of CIMT which is the most authoritative show in China, and now CCMT plays more and more strong influence on the machine tool industry and especially in East China where the machine tool market is very active.

随着疫情防控政策的调整, 投资信心恢复, 依托世界制造工厂的地位, 未来国内机床工具市场依然拥有足够大的容量, 快速升级的需求特点将更加明显。近几年, 国内汽车、特别是新能源汽车、新能源装备、石油石化装备、工业机器人、医疗器械等市场增长迅速。与此同时, 加快实施“十四五”重大工程等政策措施对市场拉动效应同样值得期待。从中长期看, 国内制造业相关投资增速可能持续高于社会固定资产投资。同时在构建以国内大循环为主体、国内国际双循环相互促进的新发展格局中, CCMT2024 将首次使用上海新国际展览中心全馆 20 万平方米, 国内外机床企业同台亮相, 为全球业界及上下游产业呈现一场高水平的数字化与机床完美融合的智造盛宴。

With the adjustment of pandemic prevention and control policies and the recovery of investment confidence, relying on the status of the world's manufacturing factory, the domestic machine tool market will still have enough space in the future, and the demand for rapid upgrading will be more obviously. In recent years, the domestic market of automobiles, especially new-energy automobiles, new-energy equipment, petroleum and petrochemical equipment, industrial robots and medical equipment has grown rapidly. At the same time, accelerating the implementation of the "14th Five-Year Plan" major projects and other policy measures is also worth expecting to the market pull effect. In the medium and long term, the growth rate of domestic manufacturing related investment may continue to be higher than that of social fixed assets investment. At the same time, in the construction of a new development pattern with domestic big cycle as the main part and domestic and international double cycle promoting each other, CCMT2024 will use 200,000 square meters of the Shanghai New International Expo Center for the first time, and domestic and overseas machine tool enterprises will appear on the same stage, presenting a high level intelligent manufacturing event for the global industry and upstream and downstream industries with perfect integration of digitization and machine tool.
